

Uniwell-Embedded POS Excellence

Security

An embedded POS terminal is an all-in-one solution where the operating system and POS application are fully integrated. This dedicated design enhances security by preventing internet access and external data entry, safeguarding the terminal’s memory from unauthorized interference.

Reliability

Uniwell's proprietary technology minimizes risks related to system reliability. Our POS systems are built for durability and ease of use, with features designed for seamless operation. Since third-party applications cannot be installed on the dedicated POS terminal, system stability remains uncompromised.

Operational speed

At Uniwell we have been developing and refining our POS technology for decades. A properly configured Uniwell POS system provides superior functionality, while still being faster and simpler to use for an operator than many other point of sale products.

Purpose-built hardware

Embedded POS terminals are specifically designed to cope with the day-to-day requirements of high-volume hospitality and retail venues. Uniwell has a long-standing reputation for quality POS hardware that can handle the physical workload that a standard tablet, laptop or PC may not.

Hardware Specification

HX7500 Display	15.6" high resolution wide LCD WXGA	<div>Interface</div> <div>1 x Ethernet 10/100Mbps</div> <div>1 x Wi-Fi IEEE802.11 b/g/n</div> <div>for</div> <div>- IRC network</div> <div>- internet connectivity</div> <div>1 x Bluetooth V2.1+EDR/BT v3.0/BT v3.0+HS/BT v4.0</div> <div>2 x RS232C (D-sub)</div> <div>5 x USB host</div> <div>for</div> <div>- collection of report data</div> <div>- data backup,</div> <div>- upload / download of</div> <div>program data &amp; graphic images</div> <div>- firmware update</div> <div>1 x microSD card interface</div> <div>2 x Cash drawer (12V drive, one connector)</div>
HX3500 Display	11.6" high resolution wide LCD WXGA	
Display interface	eDP	
Touch Panel	Bezel-free and true-flat capacitive touch screen with anti-glare surface, Enhanced waterproof performance with superior durability	
Processor	RK3288 Cortex-A17 quad core, up to 1.8GHz	
Memory	LPDDR3 2G Byte	
Storage	64GB eMMC	
HX7500 Dimensions	W393 x D266 x H250 -340mm W230 x D200mm (footprint)	
HX3500 Dimensions	W296 x D208 x H240 -300mm W230 x D200mm (footprint)	
HX7500 Weight	4.5 Kg (with POS stand) 2.8 Kg (without POS stand)	
HX3500 Weight	3.1 Kg (with POS stand) 1.4 Kg (without POS stand)	
Versatile mounting	Counter with POS stand, wall or pole (VESA)
